Redefining Risk • Creating Value

Yours all right, I wish all day, 'cause I'm
the ultimate favorite after
you're all dead

And all these never-ending feelings
Are gone left for you

That's how bad

My feelings are for you

Although I love it when you

Can't get going from work at all, I can't

Get around and back at all

Actuary, actuary, actuary

Money factory

In a busy world

If I can't see you in business that, but you
won't get me off your mind
Don't it sad

And if I happen to be free there's still no
time all for you

That's how bad

My feelings are for you

Go to work today, I'll have to go
To a Singapore Casino

And with a fortune in a game, my life will
never be the same
